LAND & OFFSHORE DRILLING

BIG HEAVY™ COVER PRODUCTS

Big Heavy™ Cover Products protect service loops, festoon systems, and critical rig equipment in onshore and offshore extreme drilling environments. Manufactured in the USA from premium cut-resistant ballistic nylon for unmatched durability and reduced downtime.

SERVICE LOOP COVERS — INSTALLED

DERRICK NET, FREE AIR DESIGN

SERVICE LOOP ON THE DERRICK

SERVICE LOOP COVERS

Shields service loops from saltwater, dust, debris and mechanical damage, keeping rigs turning with fewer interruptions.

DERRICK NET — FREE AIR DESIGN

Open-mesh service loop cover that vents heat and moisture while blocking debris and weather, on land or offshore.

ROUGHNECK SKIRT

Heavy-duty skirt that wraps critical rig-floor components against extreme conditions, wear and operational impact.

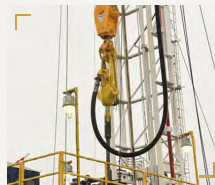

FESTOON COVER

Robust shielding for festoon cable-and-hose systems — extends service life and cuts downtime and maintenance cost.

HOSE CHAPS

Targeted abrasion protection for high-pressure hoses, electrical cables and hydraulic lines, exactly where it's needed.

COMPENSATOR HOSE COVERS

Marine-grade barriers for compensator hoses on offshore rigs — stops the abrasion and wear that lead to hose failure.

MULTI-PURPOSE STRAPS

Rig-rated straps for service loops and cable management secure, reusable and fast to deploy.

HYDRAULIC RAM PROTECTORS

Keeps dirt and debris off hydraulic ram seals, protecting the cylinders your substructure depends on.

MADE IN THE USA

Manufactured in our Houston shop

BALLISTIC NYLON

Cut-resistant, premium materials

CUSTOM-MADE

Engineered with operators & crews

ONSHORE & OFFSHORE

Built for extreme drilling environments

CUSTOM COVERS?

BIG HEAVY™ ENGINEERED TO PERFORM. BUILT TO LAST. DELIVERED WITH CONFIDENCE.
