Bangkok, Thailand 10310

Dear Mr. Gordon,

I am pleased to announce that as of **6 March 2025**, OPS Oilfield Equipment and Services LTD has been approved for IADC's DIT Program and is authorized to conduct the following course(s).

- **Rig Inspection Workshop**

Upon accreditation or course addition it is encouraged that each provider reviews the handbook, application specifics and discuss with all individuals who are associated with the program such as instructors, administrators, and primary contacts to plan for accreditation maintenance. Please note that although staff may change, all accreditation requirements will remain for the duration of the accreditation term as long as the program is in good standing.

IADC DIT HANDBOOK – the most current version of the DIT Handbook can always be found at the following link. Please bookmark this

<https://www.iadc.org/accreditation/drilling-industry-training/#dit-documents>

Email attachments

1. **USER GUIDE** will provide guidance in locating:
 - Your unique program specifics
 - Code inventory
 - Administrators
 - Primary Contact/Responsible Corporate Official
 - DIT Instructors
2. **QUALITY COMMENT POLICY**
3. **LOGO USAGE POLICY**

IADC appreciates your interest and commitment to IADC DIT Accreditation Program. IADC reserves the right to withdraw accreditation at any time based on changes to program requirements or development of accreditation programs.

Best regards,

Stephanie Rodriguez
Accreditation Coordinator
